

# Puzzle of the Week

## *Difference Pyramids – 1*

These pyramids are called *Difference Pyramids*. The number on top is the difference of the two numbers below.

**THE CHALLENGE:** Place the numbers from 1 to 6 to make a Difference Pyramid.

**1**      **2**      **3**      **4**      **5**      **6**

**EXPLORATION:** Find different ways this can be done. Are some of these essentially the same?
